

## Call for participation: 11<sup>th</sup> RoboCup Middle Size League international Workshop

*MSL game between VDL RobotSports and Tech United*

The 11th MSL workshop will take place as an in-person meeting December 16<sup>th</sup> and 17<sup>th</sup> in Eindhoven, The Netherlands. The theme of the workshop is “MSL: The Next Decade”. The workshop will consist of team presentations, guest lectures and interactive sessions between the teams. Playing with and against humans, growing the MSL community, and adapting the rules of the game are just some of the topics that will be discussed during the workshop. The main goal of the workshop is to share and exchange MSL related knowledge as much as possible.

The workshop will be hosted by the Eindhoven MSL teams VDL RobotSports and Tech United. Lunch and diner will be taken care of. Both MSL teams and other interested persons are invited to register for the workshop via:
